

Strong Against Oil

ACTIVGRIP™ CJ-569

ALL-AROUND PROTECTION

Liquid Protection with ActivGrip™ CJ-569 & ActivGrip™ KA-326

Description

Based on the already established ActivGrip™ Advance and ActivGrip™ CJ-568 technologies, ActivGrip™ CJ-569 is Towa's premium industrial glove for workplaces where oily liquids are involved. The durable nitrile coating on both the palm and the back of the hand assures maximum protection from oily liquids without compromising flexibility. Ideal for the automotive and assembly industries ActivGrip™ CJ-569 features Towa's original MicroFinish® technology promising the best grip in the industry when covered in oily liquids .

Features

Covered Backhand & Fingers

In addition to the palm, ActivGrip™ CJ-569 is fully coated on the back of the hand and all fingers, creating more protection against hazards, soil, dirt, and oil.

Oil Resistant

ActivGrip™ CJ-569 is coated with a double layer formula of nitrile, allowing more resistance against liquid penetration while keeping its unparalleled grip with MicroFinish®

Grip Performance

With Towa's original MicroFinish® technology, ActivGrip™ CJ-569 promises the best grip in the market in both dry and oily situations. With MicroFinish®, the user requires less force to hold objects, resulting in less fatigue on the hands.

Comfort

Towa's original former used for ActivGrip™ CJ-569 is ergonomically designed, assuring maximum comfort and minimum hand fatigue
